

Making Kazakhstan greener - together.

The SVEVIND Group is a European owner-managed project development company group specialized on the planning, developing and realization of large-scale wind- and solar power plant clusters. Responsible for the development of the "Markbygden 1101" cluster in Sweden – Europe's largest windfarm – SVEVIND established itself as a leading development company for green energy. Our next prestigious pioneer project is a vast wind- and solar power plant cluster in the steppe of the Kazakh region Mangystau. To strengthen the team of our company group member **TOO REC Renewable Energy Qazaqstan** in Aktau we are looking for a

Project Developer Environmental Investigations (all genders)

Your main work tasks

- Preparing, coordinating, reviewing and controlling of required environmental surveys, analyses and investigations (internal and external; part of the Environmental Impact Assessment), review and compilation of reports and relevant permit and licence applications defined under the Kazakh Environmental Code, the Investment Agreement and the Project Roadmap
- Preparing, coordinating (internal and external), and supervising on-site and desktop studies, expert interviews and on-site surveys (birds and other species relevant for the project scope, cultural heritage aspects)
- Supporting the project development department with local knowledge, work experience and coordination for preparing, performing and supervising relevant works
- Preparation and support of other local team for project development
- Close and trustful cooperation with external consultants, authorities, partners, and other project stakeholders
- You work closely together with the engineering department, legal department and project development team to achieve your personal and team goals
- You will build up a local network of environmental experts and local authorities

Your Profile

- You have a degree in biology, environmental studies or similar
- You have at least 5 years of professional experience in related businesses e.g. oil and gas exploration or production, road or railroad construction or engineering consultancy
- You have good communication skills
- You are ready to travel
- You speak English (fluent)

Our offer

- interesting and challenging development work in a forward-looking sector
- diverse exchange with international colleagues
- full-time employment (40h/week) in Aktau, Kazakhstan
- 32 days of vacation per year
- A remuneration that commensurate with your qualification
